I am deeply thankful to the teachers of CATJEE who provided me with the best of academic care. There were times when I felt low but the motivation provided by the teachers helped me to push my boundaries. The intensive practice questions given in the CATJEE study material helped me reach close to the exam pattern. The online testing platform with questions which were so close to actual exam made me exam ready. I am still working and plan to improve my performance in the April session of the exam.
